PAGES 1 ENCLOSURES (NO. & TYPE)

REMARKS

1.                      motor vehicles hauled equipment and ammunition boxes to the Flak Kaserne in Brandenburg (N 53/Z 23) from the direction of Altengrabow. However, only the guardhouse and one building of the barracks installation were lighted in the evenings                      German workmen were still employed at the installation.

2. The General-Feldzeugmeister Kaserne has been fully lighted in the evenings                      The bulk of the units had returned.                      determine whether all of the units were back. Much training activity was going on in the billeting area. Signal sections were daily seen leaving the installation

3.                      only a few soldiers wearing red-bordered black epaulets and green epaulets were seen in the Pionier Kaserne in addition to air force soldiers. **It was reported**                      that an advance party of a tank unit has been stationed in the installation for some time.

\*                      Comment. The information tends to indicate an imminent return of the troops from Altengrabow. Most of the motor vehicles belong to the 3d Cds (?) AT Arty Brig of the LXXIX Ptz Rifle Corps and, thus, confirm elements of the brigade as stationed in the Flak Kaserne.

\*\*                      Comment. The Generalfeldzeugmeister Kaserne is believed to quarter units of the 6th Arty Div which probably include the 18th (?) Hvy How Arty Brig, elements of which moved to Altengrabow at the end of September 1951. The motor vehicles belong to the 6th Arty Div.

\*\*\*                      Comment. The advance party of the tank unit probably belongs to the 63d Cds Tank Regt of the 10th Cds Tank Div, which is permanently located there. The trucks belong to a headquarters unit of the Fourth Cds Mecz Army.
